

# ACTIVITIES AND ACHIEVEMENTS OF CKN IN 2010

Meeting at Schneider Electric to implement a more significant project for CKN

We are pushing further into our photovoltaic grid for villages experiment (cooperation with Schneider Electric)

7 CKN trainers sponsored by Schneider Electric completed their training in March 2010. 3 others will finish their training next November.

More and more people and groups visit CKN, and are interested in its particular approach. "Besides numerous organizations which are doing a remarkable humanitarian assistance job, CKN is of a rare particular kind, which undertakes in priority efforts for development itself through the difficult path of training" they say.

Mr. Romont, from Paris, was part of a group of tourists who visited CKN. He continues to help us in the field of printed circuits technology.

CKN receives the 2010 award of the Association "Victoire des Autodidactes" - Paris

Vannak, CKN trainer, representing Cambodia at the ASEAN competition (May 2010) in Industrial Electronics.

Pr. Rethy Chhem, Head of the Human Health Department at the International Atomic Energy Agency in Vienna, visited our Center (June 2010). He wrote to us: "I can feel in your Center a great potential for the training of technicians and engineers in the future... You have created a remarkable educational entity in terms of pedagogy... I remain at your disposal if you need any help".

We also received the visit of Mr. Alain Vidal, CPWF program manager in Colombo-Sri Lanka

Pr. K.McKinney, President and CEO of Saxeus Corporation (Nevada-US), visited CKN in July and then wrote to us: "What you are doing in your school is very exciting, and I hope that in some small way we may be able to contribute to your success".

Pr. M. Pedoussaut and Mrs. N. Bensimon, Directors of IUT d'Orsay, help us this year in Electronics training.

Mr. Toch Sovanna (and Mr. L. Vuthy), Head of the Energy Department of the Ministry of Industry, visited the CKN facilities (solar energy, biogasifier, training...). They introduced us to many International Institutions.

ESF-CIF, Gurcy le Chatel, is preparing to assist us with educational and training equipment.

UNESCO Cambodia renewed with CKN the contract to organizing in Phnom Penh a Seminar-Technical Exhibition, event which took place last year with success at the National Institute of Education.

Participation with FORIM to the work session at the French Ministry of Integration and Solidarity Development, on the organization of the "Journée Mondiale des Migrants". Forim will send in October a team to make a capitalization visit at CKN in Cambodia in view of this day event.

With the head of St Marcellin high school, who helped us with educational equipment.

Pr. Gerd Junne, Head of the Social Department of the University of Amsterdam visited CKN in May. "CKN is an excellent example of knowledge transfer", he declared during a workshop in Phnom Penh.

Visit of Im-Saroeun at ETC (Leusden-Netherlands). Signature of two agreements of partnership (Energy and Pedagogy in technical training).
